# Principles Of Contract Law (Concise Hornbook Series) (Hornbook Series Student Edition)

## Synopsis

This text seeks to answer the two main questions relating to contract law: What promises does society enforce, and why does it enforce them? Writing in a clear and concise way, Hillman provides a great overview of the daunting area of contract law with numerous illustrations. This book covers the main topics of contract law typically treated in a first-year law school course on the subject, and handles topics such as bargain theory, fraud, remedies, contract interpretation, breach of contract, grounds for excusing performance, and third parties.

## Book Information

Series: Hornbook Series Student Edition

Paperback: 379 pages

Publisher: West (April 22, 2004)

Language: English

ISBN-10: 0314143653

ISBN-13: 978-0314143655

Product Dimensions: 0.5 x 6.2 x 9 inches

Shipping Weight: 1 pounds

Average Customer Review: 4.7 out of 5 stars [See all reviews](#) (10 customer reviews)

## Customer Reviews

I bought this and used it heavily through Contracts, and found it to be a very good supplement to the casebook. It covers the main issues in very good detail, but cannot be trusted as a single source for contract law of course - a short book could not be expected to do that. The book is written in an informal but very information way, and cites many of the popular cases that will presumably exist in your casebook. That said, if someone read this book before starting contracts, or read each chapter before reading cases relating to the material in that chapter, you'd probably get a more complete and faster comprehension of the material. This book is great for that purpose.

This hornbook makes reading the case book very, very easy. It summarizes all of the concepts from their textbook in a simple and concise manner. I highly recommend reading this book and staying a few pages ahead of your assigned text reading.

If you want to understand contracts, this is the book you need. I was very confused at the beginning of the semester, but I used this book to supplement my reading and ended up getting an A in the class. Very concise and readable, no confusing language. Good luck.

This is the single best law supplement I've come across so far. Throughout my first semester of 1L at a T14 school, I concentrated on this book as much as (and probably more than) my casebook. I finished with an A, and I credit my understanding to Hillman's hornbook. Easy breezy reading, easy to carry, but goes into plenty of depth. If your professor teaches from Hillman's casebook, then this is a must-have. If not, I still recommend it.

this is an amazing hornbook - incredibly concise - if you have the Hillman casebook - ca ching - you are in the money ! Outstanding text - only drawback for me is the corny humor - but the book is fabulous ..you will be shocked how much info is covered in this little book - with case cites galore
