Age Range: 7 - 10 years

Grade Level: 2 - 5

Customer Reviews

This is pretty good, it is a junior non fiction book so writing wise aimed at kids, but it covers Muppets from across the decades so there's something from everyone's childhood on the pages. Being that, unless your old enough to have been watching from the beginning, there's obviously some Muppets that you've never heard of. Some of the listings seem to be episode specific making the particular Muppet even more obscure, especially if producers never used it again. There's around 150 mentioned in here, obviously there's the odd omission but all the main ones that have been used to market this show and various movies over the years are in here. Even the newest one Walter gets a mention. Each Muppet either has a single or double page coverage about them. The episode the character debuted on the show and there's a very brief back story to each one, some of those

stories are a bit lame to be honest, but remember it's a kids' book and kids like lame jokes. Some Muppets have dating website parody style likes and dislikes, others special talents or favourite songs. Each page has colourful borders, screen shot style photos of the Muppet character in an episode, some of the older decades ones are a bit duller in colour or not as clear, but in addition all have a high resolution larger profile photograph showing the puppet in all its detail on a white background like it's posing for the camera. Various text boxes appear around the character. The book also covers a few things like the romance between Kermit and Miss Piggy, The Moopets, Pigs in Space, Muppet vehicles and other topics on double page spreads.
