[Essays] This book gives a lot of analysis, which are all over the place. When I read it, I thought that previous years in law school were pure waste of time because I did not get answers to questions written in such a "all over the place" manner. I consulted my academic department and showed this book to figure out what is wrong with it. They expressed the same opinion. Not only "all over the place," answers contain analysis only w/o rules of law. Although the analysis have keywords, this is not enough for the final. A student could use the book as guidelines only.[Multiple choice] The questions in MC section do not even specify whether you are in a common law jurisdiction or under the UPC. It is a shame to write such a disorganized book & it is worse to publish such a book w/o reading it. The fact that the author is a professor, does not mean that she is a good teacher. Knowledgeable professor is not equivalent to a gifted teacher capable of teaching law. Stay away from this book. Two stars for using it as guidelines. Shame on professors publishing books like this one.
