How To Create A Big, Fat Pipeline Of New Clients For Your Law Firm In Just 10 Days

Synopsis

Are You Ready to Take Your Law Firm to the Next Level? Three out of four prospective clients use the Internet to find and hire their attorneys! If youâ€™re not a dominant presence on the Internet, youâ€™re fighting for the remaining 25%. Iâ€™ll show you some very easy to implement Internet marketing tips and techniques that will bring a flood of quality clients to your law practice in just ten days (a little less than ten days if you already have a good website; a little more if you donâ€™t). Do you want your phones to ring almost nonstop with new business? Do you want to be able to cherry-pick only good, interesting cases and send out the rest? Forget Google Adwords, expensive web sites, social networking, Twitter or Facebook. Those can be fine ways to market your law firm, but with my techniques you will be able to âœset it and forget itâ€, and avoid spending excessive time on your advertising and marketing. While youâ€™re at it, forget just about everything youâ€™ve been told about Internet marketing and search engine optimization. Paying someone to create your website? Thatâ€™s crazy talk. You can delegate it if you want, but Iâ€™ll show you how to create a beautiful site in about two hours, at little or no cost, that will blow away those professionally created sites at bringing new clients to your office. Once you have the big, fat pipeline of new clients flowing, you will only need to spend about two hours per week maintaining it, and most of that can be delegated (although itâ€™s actually kind of fun). In this book you will learn: How to absolutely own your practice areas in your market. How to make yourself the recognized expert for your practice areas. How to maximize the conversion rate from prospective clients to paying clients. How to get your website on page one of Googleâ€™s search results (in one of the top three positions) in 10 days or less. How to get a business generating article onto page one of Googleâ€™s search results in less than an hour. How to use current news stories to drive clients to your website. Donâ€™t worry if you are a technophobe. My techniques are very easy to apply, and Iâ€™ll show you how to implement all of my strategies, using my own web sites as examples. Iâ€™ll take you through the ten-day plan, step by step, and on the 11th day, be ready for the phones to start ringing.

Customer Reviews

Aaron Morris has done attorneys a great service by writing this book. I was recently pitched a package from a third party offering internet marketing and search engine optimization (SEO) services. They wanted \$2,000 per month!! I politely declined and began following the techniques and skills described in this book. The best part about the book is that everything is fun to read and broken down into very manageable strategies. A number of sites I have created are already showing up on page one of major search engines for my desired search terms. Some were in first position on page one! Best of all, prospective client inquiries have increased as have the number of clients brought into my firm. I cannot recommend this book highly enough. If they had a six star rating option I would have given six stars. Although targeted at attorneys, the ideas and strategies discussed in the book can be easily applied to any business. Do yourself a favor and buy this book, read it, and start growing your business. If I can do it, anyone can.

Great and informative read!! I have always viewed the workings of the Internet as magic. (Don't know how it works, just glad it does!) Thus, the thought of designing my own websites and performing search engine optimization myself. . . . Well, let's just say, it's never crossed my mind. This book makes it easy to understand and accomplish on your own. Although tailored to law firms, the concepts and advice provided in this book can be applied to ANY business!! highly recommend it.

I enjoyed this book. It is just me in my law firm. I need items on how to grow my law firm and gain more clients. This book gave me interesting ideas on how to implement multiple websites with very

specific keywords. I never thought to use this strategy before. It's a very easy read at a reasonable price. I haven't had time to actually implement the ideas, but I plan to in the near future. I am adding a new area of law to my practice and I need to get word out to the public. I will edit the review once I implement the ideas and let everyone know how they worked for me in my new venture. Since I have not yet tried the ideas I am giving the book 4 stars and will update the stars after I implement them.

The author uses an entertaining writing style to impart a great deal of information on Internet marketing. He provides proof that his techniques work with his own real life examples. The strategies were new to me, but he makes them very easy to implement with step-by-step instructions. A must read!

Excellent well written book about SEO, and easy to read, unlike other books written with jargon and requiring an understanding of website creation. The low price is a "take this" to all the other consultants charging thousands of dollars.

This book is exactly what I need and what I have been looking for. I am not Internet savvy and this book explained so many things for me. I will use the things in this book as my blueprint for my Internet marketing. It has given me a place to start and a plan to grow.

This Book is simply amazing. I have a very small law firm. I know my clients are out there, I just did not know how to let them find me. This Book showed me how to do just that. The techniques offered by the author are easy to understand and make sense. I am not very computer savvy and before reading this book, I did know that I could actually create my own website. I HIGHLY recommend this book to anyone who wants to grow their practice in 2014. Excellent Book !!

This is a brief, but action packed little book. The author really does guide you through his process in easy baby steps. I've taken away a few new ideas to implement and have reinforced many others.
