## **Customer Reviews**

waste your time. This is one of the poorest written books I've ever had the displeasure of reading.

There are too many syntax and spelling errors to count and the author also attempts at writing some 'color' into a book that should focus on strategies. When he finally does get around to addressing

strategies, they're so complicated, I didn't even know what he was talking about. I got much more out of "Roulette Rockstar".
