Customer Reviews

It was a good tutor type book, I read it some time ago, decided to review it to see what I forgot. I was hoping to get another book by him or a similar book. I am not a big winner, but the book helped me to at least hold my own while playing. If you are going to play, get this book!

This book might have some interest for the very new player, but no help at all for those who are really into video poker. The book tells you about the flashing lights and bells! You got to be kidding! Bought for my wife as a gift, was a big let down. If your into video poker skip this one.
