[Theory & Systems > Natural Law](#) #22266 in [Books > Books on CD](#)

## Customer Reviews

Differently from many audiobooks or programs, it becomes clear that this recording was created specifically for this CD series. Dr. Epstein guides the listener through the fundamentals of mental imagery by providing his own experience, perspective as well as many exercises and real-life examples. There is small group of studio audience that interacts with Epstein occasionally, and participate with their own examples. I have found the whole program highly insightful, and actually listened to it many times. Highly recommended.

Ahead of his time. I was just sitting at a Mindfulness training today and they are recognizing all these techniques

Very informative •
