Synopsis

Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

Customer Reviews

Amundsen has a sense of humor as he writes this first hand account of the preparation and exploration of the first trip to the South Pole. Although some of his lists are long, they give a sense of the incredible preparation he made for this attempt. (and the lists can be scanned quickly) He also gives us insight into how he made his choices. I also loved the attention given to collecting data to help us understand the world around us. Action adventure at its best, an easy book to keep reading.
