## Customer Reviews

I enjoy these more than regular word searches - you have to come up with the words in categories and then find them or find words that fit in the categories. My grandmother loves these too!

Crossword puzzles are too hard for her and word searches are too easy. This fills the bill for her and it really has helped her work out her brain. She has made some up for me to do! I will continue to try to find new sources of these 'word roundups'.

These books are really cute and a great gift. They are small enough to put in your bag when

traveling without taking up too much room. The cover is hard enough to write on while on the move and the elastic strap holds it closed well.

Mom and I love these, they fill the time in doctor's offices, on the train or just sitting in the living room. You do have to think about what the possibilities are.

Person getting this puzzle book is really addicted to word round-ups!!!she's delighted with this version delivered quickly and was just right as a gift

great book to have when you are waiting at Dr. office etc love them

Didn't realize they would be crosswords but gave them as presents
