Customer Reviews

I originally bought this book to give as a gift to a history teacher but wound up keeping it for myself. Maybe I'll buy another one for him later. The book covers the time period from the Big Bang to the 2008 banking debacle with a final prognostication about the future. Each time period starts with a limerick followed by a prose summary of the era. Both are hilariously funny. I imagine the author is a hoot in person. I like everything about the book from the content, the fonts, and the art work. It's all fantastic and I'm in awe of anyone with the talent to do what Mick Twister does. I haven't found any other books by him (I'd buy them in a second) but he does have a website - more awesomeness there.

Informative book with humor. ThoroughIt enjoyed it!

I wish more history books were this entertaining

Like history and like limericks this is your book. Of course as with all limericks some are better than others.

This is a very informational and amusing book. The limericks are good, but the history lessons (short and sweet) are even better. Love this book.

What a fantastic book. Little in size but gigantic in it's content. I bought 3! They make great little presents.
