Customer Reviews

My teacher wrote this book so our lectures were based from the entire thing. Both the class and this book really made me think more about what comes on the screen rather than just tuning out like a veggie in front of it.

This book made me analyze film in a way that I had never before. It really opened my mind. It's extremely well written and I definitely recommend getting it.

The book is brand new. Everything is perfect except the delivery time. They also come with two cute bookmarks which is so sweet.

For my sons classes at Pitt.
